RANDOM SIDEDRIVE

The BestPack™ RS Series is a Semi-Automatic Random Tape Carton Sealer built for speed and rugged dependability. Using side belt drives, the RS easily seals a wide range of random carton weights and sizes, with masts that allow for an extra 4" of carton height on the upper assembly. Able to effectively seal very light to very heavy cartons, BestPack's RS sealer is a workhorse and the most flexible unit in our random carton sealer product line.

All BestPack units are available in our standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.
